Assignment Submission Document

Name Reyyan Pak

Student ID 5662379

Repository URL [reyyanq/GameDevTasks: Game Development Assignments](https://github.com/reyyanq/GameDevTasks)

How to use this document

- Check the Completed column for every assignment you submitted.
- Check the Bonus column if you completed the bonus requirements. Greyed-out cells mean that assignment has no bonus.
- Fill in the file path to the built executable so we can find your work in the repository.
- Use Notes for known issues, design decisions, or partial completion.
- [L] marks assignments that are part of the Running Project. These assignments still require separate unique executables.
